

Instrument Pipe Fittings

316 stainless steel ranging from 1/8 to 1 inch sizes

VEE-LOK[®]
valve & fitting

www.veelok.com

Instrument Pipe Fittings

Features

- Used for process control and instrumentation connections.
- Precision machined from forgings for shaped fittings and from bar stock for straight connectors.
- Size ranges from 1/8"NPT through 1"NPT.
- NPT threads are based on requirements of ANSI B1.20.1.
- A pipe thread sealant or PTFE tape are always used when assembling tapered thread.
- Male threads are capped for protection.

Pressure Ratings

Size Designator	NPT Size	316 Stainless steel			
		Male		Female	
		psi	bar	psi	bar
2	1/8"	10000	689	6500	447
4	1/4"	8000	551	6600	454
6	3/8"	7800	537	5300	365
8	1/2"	7700	530	4900	337
12	3/4"	7300	502	4600	316
16	1"	5300	365	4400	303

- Working pressures calculated are for reference only.
- Ratings are based on ASME Code for Pressure Piping B31.3 with allowable stress value 20,000 psi (1378 bar) and pressure ratings are calculated in accordance with Power Piping Code ANSI B31.1
- Pressure ratings of female threads are lower than male threads due to larger outer diameter.

Temperature Ratings

System temperatures may be limited by the thread sealant or PTFE tape to 450°F (232°C).

Material	Maximum Temperature °F (°C)
316 stainless steel	1000°F (537°C)

Ordering Information

Example :

HRN	8	—	2
Name of fitting	1 st End 1/2"NPT male pipe		2 nd End 1/8"NPT male pipe

- Pipe size are designated by the number of sixteenths of an inch.

For example, 1/2"NPT =8/16=8

- All pipe threads are NPT unless otherwise designated with BSPT or BSPP.
